

**END OF YEAR SHOWCASE SPECIAL**

**COVISION Showcase**

COVISION

The COVISION project ended the year with a showcase event at UCD's George Moore Auditorium on 26 November, where children and young people and their families, together with politicians, policy-makers and academics, joined the COVISION team to celebrate Universal Children's Day. As well as sharing COVISION's outcomes and achievements, there was an opening address from Minister for Children Roderic O'Gorman, a closing address from Children's Ombudsman Niall Muldoon, a gallery of COVID-inspired children's artwork, and a conversation with the COVISION CRAG (see below).

**COVISION Co-Design Pitch Days**

CO-DESIGN TEAM

COVISION Co-Design teams in Ireland, Mexico, Australia, Taiwan and the USA have presented their proposals for change to politicians and policy-makers at Pitch Days in each country. In Taiwan, Legislator Wang Wan-Yu responded, "All of you have brought up the problems and issues you observed and felt from the pandemic experience so that we, as policymakers, can hear your voices and pay more attention when thinking about these issues in the future." In Ireland the Minister for Children, the Children's Ombudsman, and seven top policy experts gave positive feedback and a commitment to change.

**COVISION CRAG at the Showcase**

CRAG

A highlight of the COVISION Showcase was a conversation with the COVISION CRAG (Children's Research Advisory Group) live on stage, moderated by Ayrton Kelly and Amy Ni Riabhaigh from the CRAG facilitation team (on the left in the photo). CRAG members spoke about their experiences, and the many benefits of being involved, both for themselves, and for children around the world in times of crisis and pandemic. All agreed they would urge children and young people to accept an invitation to join a CRAG in future.
